

INTERNATIONAL® 360

INTRODUCING A **REVOLUTION** IN FLEET MANAGEMENT

INTERNATIONAL
360

Wouldn't it be great if there was a way to accelerate the repair process, streamline communications with dealers, and drive uptime?

Introducing International® 360, an all-new service communication and fleet management solution that helps overcome the complexities of managing a commercial fleet while lowering Total Cost of Ownership.

BOOSTING **UPTIME** AND LOWERING TOTAL COST OF OWNERSHIP

International® 360 is built to transform how fleets manage and maintain their assets:

- ▶ Seamless communications with dealers and up-to-date repair status
- ▶ Complete VIN-based information – asset specs, complete parts catalog, remote health data, and more
- ▶ Online service request initiation and estimate approvals
- ▶ Complete service history, up-to-date campaign information, and engine calibration status

International 360 simplifies fleet management by integrating multiple fleet data sources and tools into one easy-to-use solution:

- ▶ **All makes, all models, no surcharges:** International 360 supports all makes and models, with NO monthly or annual per-VIN fees.
- ▶ **Telematics integrations:** Location, health data, and more powered by OnCommand® Connection and integrated with 24+ telematics service providers.
- ▶ **Your data, your way:** Fully compatible with existing systems, including fleet maintenance providers, fleet management companies, and more via simple application programming interfaces (API's).
